

YOUR INVITATION TO ATTEND

Innovative approaches to reducing city emissions

Speakers

Bruce Taper

Director of Kinesis, former Director Sustainability for NSW's Department of Planning.

The recently completed City of Sydney 2030 Plan includes ambitious sustainability and emissions abatement goals. Having led the innovative approach Sydney has adopted, Bruce Taper of Kinesis will speak on how a new system of green transformers in the city will remove the city's dependence on coal fired electricity; produce low emissions energy, and provide free hot water, heating and cooling. Through the application of this existing technology, the city will achieve emissions reductions of more than 50% by 2030.

Alex Fearnside

Team Leader Sustainability, City of Melbourne

The City of Melbourne has recently completed the update of its climate change mitigation strategy - Zero Net Emissions by 2020 Update 2008. This update builds on the original strategy, released in 2003, and shows how emissions from the municipality can be reduced to zero by 2020. It details specific strategies targeting emissions from the commercial, residential, energy and transport sectors.

Chair Nick Rowley, Director of Kinesis, former Advisor to UK Prime Minister Tony Blair and NSW Premier Bob Carr.

Date:

Tuesday 24 June 2008

Time:

9.30 am – 11.30 am

Venue:

Hotel Windsor

**1 Bourke Street, Melbourne
(enter via Bourke St)**

RSVP by Friday 20 June 2008

Kim le Cerf, EPA Victoria

kim.lecerf@epa.vic.gov.au or (03) 9695 2647

To minimise the environmental impacts associated with food wastage, please inform us if your circumstances change and you are no longer able to attend. Catering will be determined by RSVP numbers.

For more information contact Kim le Cerf at kim.lecerf@epa.vic.gov.au or phone 9695 2647.

As this is a Carbon Innovators Network sponsored event, by registering to attend, you will automatically become a member of EPA's Carbon Innovators Network. If you do not wish to become a member, please notify Kim with your RSVP.

For more information on the Network go to www.epa.vic.gov.au/carboninnovators
